

FUN FACTS

CONCRETE

60,000 CUBIC YARDS

You could build a sidewalk from Manhattan, KS to Oklahoma City, OK – about 300 miles – with this amount of concrete.

STEEL

13,000 TONS

This amount of steel weighs about the same as 6,500 cars or 104 million quarter-pound burgers.

PAINT

3,000,000 SQUARE FEET

You could cover 69 acres with this amount of paint.

EXTERIOR ENCLOSURE

700,000 SQUARE FEET

You could build roughly 200 houses with this amount of exterior work.

ELECTRICAL WIRE

4,500,000 LINEAR FEET

You could run a line of wire from Manhattan, KS to New Orleans – about 850 miles – with this amount of wire.

ON-SITE LABOR

4,000,000 HOURS

That averages about 385 people working for five years – or one person working for 1,925 years.
